Volume(s) and Section(s) affected:	If known at time of submission
Rationale for Change: Please include an explanation of why this change is needed	

Formulate the proposed change here, if known at time of submission

<same as the Log Summary field below>

Specify what exactly should be changed. When modifying existing text, paste it into this Change Proposal and DO NOT use MS Word change tracking. Manually format all changed text to **bold** and either underline the new text or ~~cross out the text to be removed~~.

When pasting from documents other than an IHE Technical Framework or Supplement, use “Paste Special...”, select “Unformatted text”, and apply the appropriate styles to the text inserted. This avoids importing spurious paragraph formats (which are the cause of significant headaches for editors).

Proposed changes should be introduced with “editors instructions” in a “box” such as:

<i>Replace Section X.X by the following:</i>
--

or

<i>Add the following section after Section X.X:</i>
